

# Commercial Garbage Disposals

- Dual voltage
- Dynamically balanced for smooth, long wearing operation
- Hush Cushion mounting connection for 6" cone or sink opening.
- Hard, tough cast alloy grind ring with
- Stainless steel grinding components
- Stainless steel under cutter blade for fibrous waste

1000	List Price \$2010.00
------	----------------------

- 1HP/1725 RPMs
- 1000-1, 1-phase
  - 110-120/220-240 V
- 1000-3, 3-phase
  - 208-240/460 V
- Ripper Bar integrated with turntable

1500	List Price \$2870.00
------	----------------------

- 1.5HP/1725 RPMs
- 1500-1, 1-phase
  - 110-120/220-240 V
- 1500-3, 3-phase
  - 208-240/460 V

2000	List Price \$3070.00
------	----------------------

- 2HP/1725 RPMs
- 2000-1, 1-phase
  - 110-120/220-240 V
- 2000-3, 3-phase
  - 208-240/460 V
- 3 threaded, stainless steel, support legs

3000-3	List Price \$4120.00
--------	----------------------

- 3HP/1740 RPMs
- 3-phase
  - 208-220/440 V
- 2 ripper bars built into turntable
- 3 threaded, stainless steel, support legs

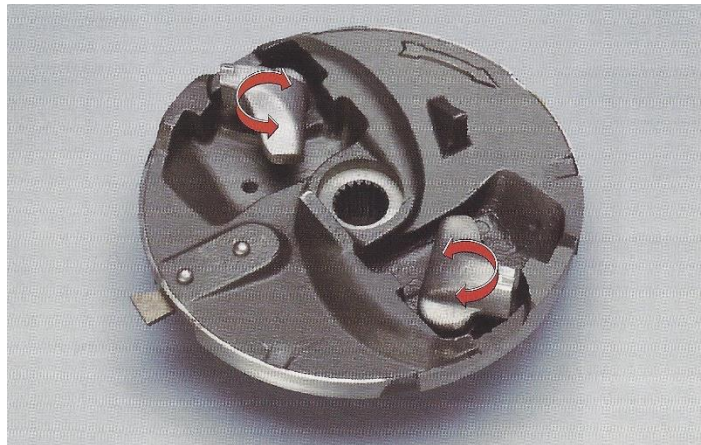

5000-3	List Price \$5820.00
--------	----------------------

- 5HP/1740 RPMs
- 3-phase
  - 208-220/440 V
- 6 ripper bars built into turntable
- 3 threaded, stainless steel, support legs

# Anti-Jam Swivel Impellers

- Swivel impellers rotate out of the way of an impending jam, then quickly fall back into grinding position, thus preventing jams but not compromising grinding power.
- Competitors addressed jam issues with a reversing motor, the theory was that if the motor jammed, it would simply go in the other direction and loosen the jam. But most motors just don't have the same start-up torque as Waste King to back out of a jam.

## A Look Inside Waste King Commercial
